**Subject:** Microsoft - DOJ settlement

To whom it may concern:

I as a consumer, do not agree with the DOJ's antitrust settlement with Microsoft. I believe the DOJ has sold the American consumer out in this settlement and has failed miserably to protect entrepreneurial and small business interests.

After having found Microsoft to be a monopolist, you have rewarded them with nothing more than a slap on the wrist. I find this very disheartening and unfair. You have convinced me that there is no such thing as justice, nor fairness in our federal judicial system. When you have size and clout like Microsoft, you can manipulate the outcome.
